

Pham 107868

f: Caelum\_82

2: Puginator\_89

A 2x4 grid of colored squares. The first two columns are light gray, and the next two are light pink. Vertical lines are present: a red line between the first and second pink columns, an orange line between the second and third pink columns, a yellow line between the third and fourth pink columns, and a red line between the fourth pink column and the final gray column. A horizontal line separates the two rows. The label 'B: Paolo\_83' is in the bottom-left corner.

Note: Tracks are now grouped by subcluster and scaled. Switching in subcluster is indicated by changes in track color. Track scale is now set by default to display the region 30 bp upstream of start 1 to 30 bp downstream of the last possible start. If this default region is judged to be packed too tightly with annotated starts, the track will be further scaled to only show that region of the ORF with annotated starts. This action will be indicated by adding "Zoomed" to the title. For starts, yellow indicates the location of called starts comprised solely of Glimmer/GeneMark auto-annotations, green indicates the location of called starts with at least 1 manual gene annotation.
