

Diagram illustrating a horizontal line with six vertical lines intersecting it, creating seven rectangular regions. The vertical lines are labeled 1 through 6 at the top. The regions are shaded as follows:

- Region 1 (left of line 1): light yellow
- Region 2 (between lines 1 and 2): light red
- Region 3 (between lines 2 and 3): light red
- Region 4 (between lines 3 and 4): light red
- Region 5 (between lines 4 and 5): light orange
- Region 6 (between lines 5 and 6): light green
- Region 7 (right of line 6): light blue

Note: Tracks are now grouped by subcluster and scaled. Switching in subcluster is indicated by changes in track color. Track scale is now set by default to display the region 30 bp upstream of start 1 to 30 bp downstream of the last possible start. If this default region is judged to be packed too tightly with annotated starts, the track will be further scaled to only show that region of the ORF with annotated starts. This action will be indicated by adding "Zoomed" to the title. For starts, yellow indicates the location of called starts comprised solely of Glimmer/GeneMark auto-annotations, green indicates the location of called starts with at least 1 manual gene annotation.

## Pham 22321 Report

This analysis was run 04/28/24 on database version 559.

Pham number 22321 has 2 members, 1 are drafts.

Phages represented in each track:

- Track 1 : RainyPolka\_65, Abt2graduatex2\_66

### ***Summary of Final Annotations (See graph section above for start numbers):***

The start number called the most often in the published annotations is 1, it was called in 1 of the 1 non-draft genes in the pham.

Genes that call this "Most Annotated" start:

- Abt2graduatex2\_66, RainyPolka\_65,

Genes that have the "Most Annotated" start but do not call it:

- 

Genes that do not have the "Most Annotated" start:

- 

### **Summary by start number:**

Start 1:

- Found in 2 of 2 ( 100.0% ) of genes in pham
- Manual Annotations of this start: 1 of 1
- Called 100.0% of time when present
- Phage (with cluster) where this start called: Abt2graduatex2\_66 (BG), RainyPolka\_65 (BG),

### **Summary by clusters:**

There is one cluster represented in this pham: BG

Info for manual annotations of cluster BG:

- Start number 1 was manually annotated 1 time for cluster BG.

### **Gene Information:**

Gene: Abt2graduatex2\_66 Start: 52499, Stop: 52651, Start Num: 1

Candidate Starts for Abt2graduatex2\_66:

(Start: 1 @52499 has 1 MA's), (2, 52526), (3, 52577), (4, 52598), (5, 52613),

Gene: RainyPolka\_65 Start: 51882, Stop: 52034, Start Num: 1

Candidate Starts for RainyPolka\_65:

(Start: 1 @51882 has 1 MA's), (2, 51909), (3, 51960), (4, 51981), (5, 51996),
