

A table with a pink background, divided into two rows and three columns. The columns are separated by vertical lines: a yellow line on the left, a red line in the middle, and a blue line on the right. A horizontal black line separates the two rows. The text '1: Vitaenoi_85' is located in the bottom-left corner of the table.

1: Vitaenoi_85

A table with a pink background, divided into two rows and three columns. The columns are separated by vertical lines: a yellow line on the left, a red line in the middle, and a blue line on the right. A horizontal black line separates the two rows. The text '2: Philon9_85' is located in the bottom-left corner of the table.

2: Philon9_85

Note: Tracks are now grouped by subcluster and scaled. Switching in subcluster is indicated by changes in track color. Track scale is now set by default to display the region 30 bp upstream of start 1 to 30 bp downstream of the last possible start. If this default region is judged to be packed too tightly with annotated starts, the track will be further scaled to only show that region of the ORF with annotated starts. This action will be indicated by adding "Zoomed" to the title. For starts, yellow indicates the location of called starts comprised solely of Glimmer/GeneMark auto-annotations, green indicates the location of called starts with at least 1 manual gene annotation.

Pham 92945 Report

This analysis was run 01/18/25 on database version 583.

Pham number 92945 has 2 members, 2 are drafts.

Phages represented in each track:

- Track 1 : Vitaenoi_85
- Track 2 : Philon9_85

Summary of Final Annotations (See graph section above for start numbers):

This pham is comprised of all draft annotations. There are no annotations to summarize.

Summary by start number:

Start 1:

- Found in 2 of 2 (100.0%) of genes in pham
- No Manual Annotations of this start.
- Called 100.0% of time when present
- Phage (with cluster) where this start called: Philon9_85 (CS4), Vitaenoi_85 (CS4),

Summary by clusters:

There is one cluster represented in this pham: CS4

Gene Information:

Gene: Philon9_85 Start: 70109, Stop: 69981, Start Num: 1

Candidate Starts for Philon9_85:

(1, 70109), (2, 70052),

Gene: Vitaenoi_85 Start: 70093, Stop: 69965, Start Num: 1

Candidate Starts for Vitaenoi_85:

(1, 70093), (2, 70036), (3, 69988),
